

WR4U421NE

Near-edge

Wax/resin ribbon designed for industrial near-edge printers in high-volume labelling applications like flexible film and print and apply applications.

WR4U 421NE produces consistent print quality and clean dot edges for dense barcodes with great abrasion resistance and it can be used for printing on a wide variety of substrates.

Characteristics

- + Low printhead energy
- + Abrasion resistance
- + Print flexibility
- + High-density print

Substrates

- Coated paper
- Uncoated paper
- Cards
- Synthetics polyester
- PVC
- Polypropylene (PP)
- Polyethylene (PE)

Applications

- Warehouse
- Healthcare
- Lumber
- Pharmaceutical
- Retail
- Fresh fruit / produce
- Metals
- Flex packaging
- Transportation
- Horticulture

Storage: Out of direct sunlight. Storage between temperatures of 5 °C to 35 °C (41 to 95°F) in dry conditions.

Technical specifications

Carrier	4.5µm
Color	Black
Ink melting point	70 °C (158 °F)
